Continue to whisk whilst topping up the inner pot with more cool drinking water to approximately 5 cm from the top. Put the lid on and gently lower the inner pot into the outer pot.

Plug the maker into a power socket and turn on. Press the red start button.

Leave to incubate for approximately 8 - 12 hours until set. Do not move urn once in position.

Ensure urn is not in a draughty cold environment or next to very hot equipment.

Remove the inner pot from the outer pot, dry and refrigerate at 4 degrees.

Empty water from the outer pot, dry or refill with cool water. Do not re-use the water for the next batch as it may be too warm.
